Short Term and Long Term Goals

I am currently attending OSU Cascades to earn my BA in Education with emphasis on STEM and a minor in HDFS. After receiving my BA, my educational goal is to continue at OSU Cascades and earn my MA in Teaching-Elementary Education. I will use my BA to apply to the Masters program at OSU Cascades, in turn becoming an elementary education teacher. I am also considering obtaining my administrative license enabling me to become a principal.

My long term goal is to have the training and knowledge to work with students who have different diversabilities as well as general ed students. I would love to be able to become a teacher at Westside Village Magnet School which has an integrated curriculum, mixed aged classrooms, and models the full inclusion of special education students. I will accomplish my educational goals by continuing to be diligent in all my classes and building positive relationships with my professors and members of my cohort. I will accomplish my career goals by putting time and effort into student teaching as well as doing research on my own time on how to be a successful and effective teacher.

I am fortunate to have already developed strong relationships with many amazing educators in Central Oregon. Prior to COVID, I was fortunate to work and volunteer at Westside Village both during the school year and in their summer programs. Working side by side with

the faculty there, further inspired me to teach children in the model provided by this amazing school. I will continue learning from these educators as they offer their guidance to me. My studies at Oregon State will help me accomplish my goals because I am attending classes specialized to my future degree.
